MARKETING AND INTERACTIVE RELEASE CAMPAIGNS

Advent Entertainment, LLC plans to use digital displays, where allowed, with the release of the feature films in theaters and provide for instant merchandising and interaction with fans. We plan to make purchasing through our displays available in both traditional methods of payment as well as digital tokens and cryptocurrency, including Advent Tokens. Marketing, smart theater creation, augmented reality, virtual reality and digital screens are set up with the goal to greatly enhance the reception of our projects.

SOCIAL MARKETING WITH VISUAL EFFECTS

Using a combination of the digital displays, embedded cameras and visual effects technology we plan to allow moviegoers to become a part of the events inside the screen. Imagine posing next to your favorite hero or animated character in their world and in their poster. In our development plan, moviegoers will be able to post themselves with their favorite movie stars and characters to their social networks and our hope is that this technology will drive social marketing for films and merchandise to a much higher level.

ADVENTLIVE

VIRTUAL AND AUGMENTED REALITY

Our development plans include the ability to have a moviegoer simply scan the symbol on a poster with their telephone or tablet, download an app and be able to unlock virtual reality and augmented reality in the lobby and hallways of the theater. Through their phone or tablet they will be able to see fantastical worlds within the theater or superheroes saving the day. Our vision is to make the theater a virtual reality theme park and each new movie can bring with it new adventures in the lobby and hallways. Development plans to allow films to actively participate through marketing events – for example an “Easter Egg” type challenges for moviegoers.
